

Incest in the Archives

Massachusetts, after all, had not executed anyone for rape in twenty-seven years . . . Yet now . . . the community took a daughter's accusation against her father so seriously that it sent a man to the gallows. What circumstances, we wondered, led to this extraordinary outcome?

He Said, She Said

Since the ability to impregnate a woman was a crucial component of manhood in seventeenth-century America, T could be at best only a partial man by colonial standards.

Still Pequot After All These Years

One concept sure to provoke debate among scholars is the notion that a tribal understanding of the past may incorporate ways of knowing that are different from western epistemologies, yet more sophisticated than mere wishful thinking.

The Second Amendment: Constitutional Meanings

“When it comes to the United States Constitution, most historians reject the idea that its meaning can be reduced to some easy formula or series of sweeping generalizations.”
